THUMPED AGAIN.

The Toledos Win From the Washingtons Through Pure Good Luck.

To-day's Game-Results of Yesterday's Games Played Elsewhere.

The luck of base ball was well illustrated by yesterday's game at Athletic park. The Toledos could do nothing with Trumbuil's wild eratic pitching. The home club made but few mistakes in fielding, and yet the visitors won easily by a score of six to one. Humphries had three passed balls, and made one wild throw. Fennelly made a wild throw and Trumbull a wild pitch, these being the only fielding errors the home boys being the only fielding errors the home boys made, but every one told on the score. Two of the runs were made by players whom Trumbull had given base on balls. In the hird inning Brown hit a ball to Fennelly, which was threwn low and wide past Prince, giving the batter third base. Barkley made a hit bringing him home, and afterward scored himself on a passed ball and fast base running. In the fifth Moffatt hit to center the ball, bounding high over Mullin's head, enabling the runner to reach third. Barkley was given his base on balls. Miller hit to Fennelly, who fielded the ball quickly to Humphries, catching Moffatt on the home plate. The Toledoskicked vigorously against this decision; in fact, they gave evidence all through the game of having cultivated the noble art of chinning the umpire to a high degree of proficiency. The man who had made three bases on a rattling good hit having been put out, Trumbull considerately made a wild pitch, allowing the man whom he had sent to first base on called palls to score. In the seventh, Brown made a good hit, stole second, and got around on a passed ball. In the eighth, Mullane took made, but overy one told on the score. Two palls to score. In the seventh, Brown made a good hit, stole second, and got sround on a passed ball. In the eighth, Mullane took first base on called bails. He "lit out" for second on the second ball pitched, and Humphries threw the ball down with so much enthusiasm and vigor that it went to center field fence instead of ledging in Hawkes's hands, as it was intended to do. Mullane same home at his loisure. Brown opened proceedings in the ninth with a good hit to left, Moslatt made a good hit to center, on which Brown essayed to score, but was cut off at the plate on Mullin's good throw in, Moslatt getting to second. Barkley made a base hit, Mosfatt scoring. He stole second, and took third on a passed ball. Miller hit to right, where Smith made a fine catch, and by an accurate throw to Humphries put Barkely out at Smith made a fine catch, and by an accurate throw to Humphries put Harkely out at home plate, making a fine double play. The Washingtons made their solitary run in the sixth inning, Humphries getting first on Brown's fumble of his ground hit; third, on Hawkes's flue double bagger, and home on a base hit by Prince. Smith and Mullin each made good catches. Gladmon made a nice catch of a difficult foul-bound. Humphries was a little off in his throwing to second, failing to catch a single man of those trying to steal second. Mullane and Walker gave a fine exhibition, working together to perfoction, the lithe colored catcher doing his work without a mistake of any sort. Fennelly seems to have temporarily lest his batting powers, this being the third consecutive game nowers, this being the third consecutive game in which he has failed to make a hit. The same clubs play this afternoon, and as they are quite evenly matched an interesting game is in prospect. The score was as follows: TOLEDOS,

Miller, a s.
Mullane, p.
O'Day, r. f.
Walker, c.
Welch, c. f.
Tilley, f.
Brown, 3b. Totals...... 33 6 6 27 Totals...... 82 1 5 27 13

Earned runs—None. Two-base hits—Hawkes. Three-base hits—Moffatt. First base on balls—By Muliane, it by Trumbull, 5. First base on errors—Toledo, it Washington, 2. Struck out—By Mullane, 4; by Trumbull, 4. Donble plays—Brown and Moffatt: Smith and Humparies. Passed balls—Humphries, 8. Wild pitches—Trumbull, 1. Time of game—2 hours and 15 minutes. Umpire—

The government printing office nine played The government printing office nine played the pension office nine the second game of base ball yesterday at the Capitol park. There were about 500 persons present, and the game was one of the finest that has been played there this season. They will play again on Wednesday, June 18. The score of yesterday was 6 to 0 in favor of the government printing office nine. H. Beall was the umpire and C. M. Heller scorer.

Contracts Awarded.

Contracts have been awarded to the following named persons and firms for supplies to be furnished the postoffice department

during the next fiscal year: Woolworth & Graham, of New York, 16.

400 reams of wrapping paper; Rowland A.
Robbins, New York, 300,000 pounds jute
twine; James R. Michael, New York, 300,

600 pounds cotton twins; Jahn T. Bailey,

was \$200,000.

Philadelphia, 60,000 pounds home twine; William Muirhead, Washington, D. C., and George A. Wallace & Co., Providence, R. I., marking and rating states; Julius Baumgarten, Washington, D. C., ribbon stamps, ribbons, and rubber dating stamps; Fairbanka & Co., New York, letter balances and scales; Benjamin Chambers, Washingtou, D. C., making and rating stamps.

THE WORLD'S FAIR.

The President's Message to Congress in Reference to the Government Exhib-

The President vesterday transmitted to congress a communication, accompanied by a letter from the board of managers of the World's Industrial and Cotton Centennial exposition. relative to an appropriation for making a complete collection of the articles and materials deemed desirable to place on exhibition in illustration of the resources of the country, its method of governmental administration and its means of offense and defense. The amount asked by the heard of managers is \$588,000, to be distributed among the various

departments.
The President says: The exhibit of the government at the Centennial exhibition at Philadelphia in 1876 was admitted to be one, of the most attractive features of that great national undertaking, and a valuable addi-tion to it. From men of intelligence and sci-

tion to it. From men of intelligence and scientific attainments at home and abroad it received the highest encominms, showing the interest it awakened among those whose lives are given to the improvement of the social and material condition of the people.

The reproduction of such a display now, on a more instructive plan, is rendered possible by the advancement of science and inventions during the eight years that have passed since the Philadelphia exhibit was collected. The importance, purposes, and benedits of the New Orleans exhibition are continental in their scope. Standing at the threshold of the almost unopened markets of Spanish and Portugese America, New Orleans is a natural gateway to their trade, and the exhibition offers to the people of Mexico and Central and South America an adequate knowledge of our offers to the people of Mexico and Central and South America an adequate knowledge of our farming implements, metal manufactures, cotton and woolen goods, and the like neces-sities of existence in respect to which these countries are deficient or supplied to a lim-ited extent. The breaking down of the bar-riers which still separate us from the repub-lies of America, whose productions so entirely

omplement our own, will sid greatly in removing the disparity of commercial intercourse, under which less than 10 per cent. of
our experts goes to American countries.

I trust that congress will realize the urgency of this recommendation and make its
appropriation immediately available, so that
the board may lose no time in undertaking the extensive preparations accessary to spread a more intimate knowledge of our govern-mental institutions and national resources among the people of our country and of neighboring states in a way to command the

respect due it in the family of nations.

Col. Lyford, chairman of the board, in his letter of transmittal says: "The amounts herein estimated for are exclusive of the cost ora building. The recent loan set in aid of the exposition, having prescribed that the board of management of the exposition should furnish free of all charge 'adequate space, to be determined by the President of the United States, for such exhibits as the government of the United States may see proper to make at said exposition.' said exposition.'

The experience gained at the international txhibition of 1876 will enable the govern-ment to make a display that will be larger in ment to make a display that will be larger in extent and more varied and complete in its details than was made at that exhibition. Myknowledge of the nigh one omiums accorded the government exhibit in 1876, its attractiveness as a contribution by the government to that exhibition and its great practical value as an instructor of the people, induce me to express the hope that ample provision will be made by congress to enable a similar representation of the government to be made at the New Orleans exhibition.

sentation of the government to be made at the New Orleans exhibition.

The growing interest which the country has in the trade and commerce of the Cen-tral and South American states would of tral and South American states would of itself be sufficient to warrant the expenditure of a large amount to make this expesition a grand success, while the international features of the exposition requires that the government itself should in a creditable manner be represented at it. In view of the nearness of the date of opening of the exposition, I would urgently recommend that the appropriations to enable the government to particle them.

The following are the estimates in uctain. For the war department, \$13,000; navy department, \$10,000; state department, \$10,000; treasury department, \$20,000; interior department (not in bureau of education), \$90,000; bureau of education, \$40,000; postoffice department, \$20,000; department of sgriculture, \$10,000; department of justice, \$3,000; Smithsonian institute, including National museum and commission of fish and fisheries, \$90,000; incidental expenses, \$50,000; total, \$585,000.

OUR FOREIGN SERVICE.

ate.

Increase in the Consular and Diplomatic Appropriation Bill Made by the Sen-

The consular and diplomatic appropriation bill reported to the senate from the appropriation committee yesterday, appropriates \$1,785,576, an increase over the appropriation provided by the bill as passed by the house of \$801,860, and an increase of \$205,975 over the

estimates. The principal increases over the estimates, and which are also increases over the house bill, are \$230,000 for expenses under the nentrality act; \$25,500 for a commission to the Central and South American countries, and

\$15,000 for a commercial sgeney in the Congo valley. Among other changes from the house bill are the following:

The salaries of the ministers to Austria and Italy are increased from \$10,000 to \$12,000 each. A minister is provided for both Bolivia and Evnador at a salary of \$5,000 each, instead of making the salaries the salary of \$5,000 each, instead. of making the ministers to Chill and Peru charge d'affaires of those countries as pro-vided by the house bill. A minister resident, instead of a consul general, is provided for Roumania, Servis, and Grecov. An appro-priation of \$20,000 is made for charge d'affaires

ad interim, and diplomatic officers abroad.

The appropriation for salaries of secretaries and interpreters of logations is increased from \$46,200 to \$52,500; the appropriations for contingent expenses of foreign intercourse proper from \$15,500 to \$80,000, and the appropriation for salaries of consuls generals

appropriation for salaries of consuls generals from \$78,000 to \$92,000.

Consuls instead of consul generals are provided as follows: At Cairo at a salary of \$5,000, for Ecuador at \$3,000, at Matamoras at \$2,500, at Liverpool, at \$8,000. The appropriation of \$3,000 for a consul general at Bucharost is stricken out.

The appropriation for salaries of consuls, vice consuls, compared a scents and consuls,

vice consuls, commercial agents and consuls, vice consuls, commercial agents and consuls clerks is increased from \$300,000 to \$344,000, and an appropriation of \$234,556 for an international boundary survey between the United States and Mexico is provided.

Exports of Petroleum.

The chief of the bureau of statistics reports that the total values of the exports of petroloum and petroleum products from the United States during the mouth of April, 1884, and during the ten months ended the same, as compared with similar experts during the corresponding periods of the pre-ceding year, were as follows:

1884. April...... 92,392,426 Ten months ended April 30 38,972,244

Owing to a Change In our manufacturing department in Baltimore, we find ourselves overstocked. If you are seeking bargains in clothing you will not be disappointed by calling on us. Edstan Ross, cor. 7th and E DEPARTMENT NEWS.

The receipts from internal revenue yesterlay were \$507,504, and from customs \$428,367. The national bank notes received for redemption amounted to \$499,600. The first comptroller of the treasury has decided that a person performing the duties of balliff and criter of accourt can only receive the pay of one of the two effices.

SOME POINTERS FOR SPRINGER. Suggested by Ex-Senator Dorsey in

Letter Written Last March. Mr. Springer's committee will probably

make no further effort to secure the attendance of ex-Senator Dorsey as a witness. Early In March the ex-senator sent the following letter to Mr. Springer which in part gives his views on the star route cases:

letter to Mr. Springer which in part gives his views ou the star route cases:

The telegraphic report that has reached me respecting the testimony of one Thomas is, James and Wayne Mac Vengh excite my currently as picturesque specimen of faishnood. I never doubted their expecting in that direction, but I have always doubted their expecting in that direction, but I have always doubted their expecting in that direction, but I have always doubted their expecting in that direction, but I have always doubted their expecting in their courage to assert it. James whole story as to Carfield is a miserable fabrication of a miserable man.

Speaking to you personally, I would be glad if you would call ex-benator Speacer and compel into tell whom and where he ever saw me pay lindly one cent. If he names he time and pleace, then call for the record of the books and see if i was there. As a matter of truth I never saw Hendy in New York in my life, and never poke to thin a half desentines until the star route trials began. Summon W. W. Witshire and force him to say winst bribe he got from the government to turn form bins what division of the bribe was unsite between himself said Witshire. I think Rerdell is now in Florida, but you can easily ascertain. William Dickson, of course, you will see. Summon also Col. E. O. Ingersoll, and I hope you will give him the largest failtude of statement. Summon Mr. Milliam Dickson, of course, you will see. Summon Mr. Milliam who used to be chief clerk of the department of justice, and James R. Young will that he arguest failtude of statement. Summon Mr. Milliams who used to be chief clerk of the department of justice, and James R. Young will the him the largest failtude of statement. Summon Mr. Milliams who must to be capaniflures of public money, and produce all the data showing how the appropriations for the expensions of course all over the country were applied by him to the star route rial; and if you can get the proof you will find that the treasury of the United States was robbed of mi

In the contracts; also, Mrs. Dora E. Peck, of Oberllt, Ohio.

Salt Lake, Itah, in my believe paid \$350,000 to the
Bliss-Breunder crowd to protect what the law
ought to protect in: J. W. Parker, of Atchison,
Kan, could telt you a good deal, if you can induce him to do se. S. E. Ekkins, Phited Bang
building, New York, has probably a larger knowledge than any other person of all the star route
matters, and the money paid. Mr. Brown, a contractor in Washington, came to me lasNew York
at the beginning of the investigation of the star
routes, and wanted me to contribute \$7,000 for
corrupt purposes, which I declined to pay.

George C. Spenser demanded of the late J. W.

routes, and wanted me to contribute \$7,000 for corrupt purposes, which I declined to pay.

George C. Spenser demanded of the late J. W. Bosier and myself \$12,000 to may Mr. Elkins for the purpose of avoiding indictinent and prosecution, and I replied that I would not pay a tenny, and never this. I would call for all the books and papers touching this matter, in the hands of the sixth auditor, and put an expert in charge of them, and you will accertain: First, that I never received a cent from the government as a star route contractor; and second, that the men who did received a cent from the government as a star route contractor; and second, that the men who did receive it were never prosecuted.

Of course these suggestions are simply dropped for your consideration. There is one thing, however, I wish to ask of you, pursonally, that while I am entirely willing to give your committee the fellest knowledge I have, my engagements are such that it would be aimost impossible for me to leave here until the middle of May.

I also express the wish that the subposma for J. W. Dorsey, and Mrs. Dora E. Peck, and myself be so arranged that we can appear the same day in Washington. Col. Ingersoil, I hope, will see you in the course of three or four days, and will explain to you the duties I have to perform here in the discharge of my private business, and, speaking for myself. I wish to say that I would rather let all the lians lie and then answer them.

P. S.—Call upon J. Herman Booler, of Carlisle, Pa., for the books referring to the star route matters, in which J. W. Bosler, of whose estate he is executor, received and paid out all the moneys it was possible to charge to my account. S. W. D.

MIXED MARRIAGES.

A Bill Forever Prohibiting Marriage Between White and Colored People. Some excitement has been caused among

the colored residents of this city by the discovery of a bill which is pending before the house district committee. The bill was introduced by Representative Bennett last January. It provides "that all marriages between a white person and a negro or between a white person and person of negro descent to the third generation, inclusive, are forever prohibited hereafter in the District of Columbia, and shall be void. Every person violating this section shall be deemed guilty of an infamous offense, and, upon conviction, shall be sentenced to suffer imprisonment and labor for a period of not less than one nor more than seven years." It is understood that congress will be petitioned to kill the obnoxious measure, which they characterize as "un American."

Certificates to Chinese Laborers.

The treasury department is informed that in some instances certificates as prescribed by section 4 of the act of May 6, 1882, have been granted to Chinese laborers at ports other than that of the exit of the laborers from the United States, and that such certificates have been given to Chinese merchants. Under this practice duplicate certificates may semetimes be granted—one at the first port and one at the port of exit, and one at least might be fraudulently used to obtain the admission into the United States of a Chinese laborar not entitled to the privilege. Customs officers have therefore been instruced to be careful to confine the issue of such decuments to Chinese laborars who depart directly for a foreign port, and to rofrain from issuing them to laborars who intend to proceed to China or any other foreign place via some other port in the United States, or to Chinamen who are not laborars. from the United States, and that such cer-

William Rabes, the keeper of a restaurant on Cstreet, between Second and Third streets northeast, went down the river on a fishing trip Sunday morning with soveral friends. The party was not only provided with fishing tackle, but also had a liberal supply of liquid refreshments. Rabou came home late Sunday night under the influence of liquor, and repaired to his bed room in the second story. A few miantes later a loud thad on the area pavement announced that he had fallen out of the window. It is supposed that in leauing out it lost his balance and toppled over. Dr. J. W. Bayne was summened, and found that Rabes's head had struck on the sharp corner of the area, cutting a terrible gash between four and five inches long and inward to the bone. The injured man bled freely and was delirious all day yesterday. Last night he was resting easier. His condition is considered critical. trip Sunday morning with several friends.

Prize Fight on Board Ship. There has been "bad blood" between Reddy White and John Stevens, the two Washington sluggers, ever since Stevens gave White away on the Comique stage. Last night a well known local sporting man announced well known local sporting man anuounced that he had raised a purse and would give both men a chance to get even in a prize fight. He proposes to charter a schooner and take the men down the Potomac. A ring will be arranged on the upper dock and the pugilists given a chance at each other with naked fists. The affair will be the first nautical prize fight on record. Only a few spectators will be allowed to accompany the fighters, and each of thom will have to pay \$5 for the privilege of going. There is a desperate feud existing between Stevens and White, and the fight will be a desporate one. Several bets were made on desporate one. Several bets were made on the contest last night. White was the favorite.

The "Georgia What Is It?"

The "Georgia What is it!"

To the Editor.

From description, the animal caught by Mr. George Smith, of Galasville, Ga., would seem to be like what is sometimes caught in Narragament bay, R. I., and what is there vulgarly known as the "feat grunter." It is very ugly, but apparently harmless, and a very queer animal to be found in the element of the fish.

June 9, 1884. JUNE 9, 1884.

Death of John Bull.

Mr. John Bull, who has resided in this city for many years, died yesterday of Bright's disease. He first came here as a bank examiner, and then was associated with Messrs Kilbourn & Latta in the real estate business, Subsequently, he managed the property of Subsequently, he managed the preparty of Mesers. Sunderland & Hillyer, in the north-western part of the city, which formed a part of the famous real estate pool, and later had control of the large interests in this city of Mr. John B. Alley, of Massachusetts, who pays a larger tax upon real estate in this city than any citizen here, excepting Mr. W. W. Corcoran. Mr. Bull was noted for his

integrity and honesty, and was strictly correct in every business transaction. He has made many friends, who will deeply regret his death. He was descended from the Bull family in Germantown, near Philadelphia, who were arrant tories during the revolution, though it is believed the deceased was born in Newport, R. I. He was 64 years of age.

AN INDIAN POLICY.

The Provisions of the Joint Resolution Introduced in the House Yesterday.

The joint resolution relative to the future transment of the Indians, introduced in the house yesterday by Representative Smith, of Pennsylvania, provides that congress shall solemnly pledge the faith of the nation to the ladian policy embedded in the following platform of principles: Never break faith with the Indians; carry

platform of principles:

Never break faith with the Indians; carry honestly into effect all treaty atipulations. Keep all intruders out of the Indian territory; continue the self-government of the divilined tribes until a change becomes manifestly necessary; emact suitable laws to protect life and property on reservations; administer them promptly and rigidly; individualize the punishment of crime; never hold the tribe liable for the crimes of its members; organize an efficient Indian police force on every reservation.

Create a separate Indian department under a civilian secretary; have all agencies frequently inspected by appointees of the president, well paid and unconnected with the Indian department; carefully regulate the powers and duties of Indian agents; give them permanent positions and liberal salaries; keep them free from political influence; let their subordinates be appointed by the department; all questions of general policy and treatment to be settled by the department; no individual experiments by theoretical agents to be permitted; abolish all privileged traderships; al-solutely destroy all traffic in liquors; control the sale of arms and ammunition; let all military posts be maintained separate and apart from the Indian villages, and preverse absolute nonand annual separate and apart from the Indian villages, and preserve absolute non-intercourse between the soldiers and the

Indians.

Remove no more tribes except where the soil and climate require it and the change is voluntary; civilize the Indians where they

Educate the entire Indian reservation por Educate the entire indian reservation population; teach the children in manual labor schools; make them farmers, graziers, and tradesmen; give all the lands an abundance of catile; instruct them in the laws of health; show them how to live; neartraitse the work of the medicine man; make work compul-

sory.
On reservations divide land in severalty as soon as the Indians can farm them; make them inalienable and non-taxable for a time; sell the surplus lands for the benefit of the

Give citizenship to all self-supporting In-dians who ask it.

A New Military Company. A new colored military organization has beene ffected in this city. It will be known as the Garfield Rifles' cadots, and will meet

in the hall on C street, between Thirteen and Thirteen and a half streets. Mr. John H. Brooks has been elected captain of the command. The uniform will be dark blue trimmed with white.
